Total	

Complete the information below about yourself very carefully.

QM student number

--	--	--	--	--	--	--	--	--	--

BUPT student number

--	--	--	--	--	--	--	--	--	--

Class number

--	--	--	--	--	--	--	--	--	--

**NOT allowed: electronic calculators and electronic dictionaries.**

## INSTRUCTIONS

1. You must **NOT** take answer books, used or unused, from the examination room.
2. Write only with a black or blue pen **and in English**.
3. Do all rough work in the answer book – **do not tear out any pages**.
4. If you use Supplementary Answer Books, tie them to the end of this book.
5. Write clearly and legibly.
6. **Read the instructions on the inside cover.**

**Examiners**

Dr Gokop Goteng

# Instructions

## Before the start of the examination

- 1) Place your BUPT and QM student cards on the corner of your desk so that your picture is visible.
- 2) Put all bags, coats and other belongings at the back/front of the room. All small items in your pockets, including wallets, mobile phones and other electronic devices must be **placed in your bag in advance. Possession of mobile phones, electronic devices and unauthorised materials is an offence.**
- 3) Please ensure your mobile phone is switched off and that no alarm will sound during the exam. **A mobile phone causing a disruption is also an assessment offence.**
- 4) Do not turn over your question paper or begin writing until told to do.

## During the examination

- 1) You must not communicate with or copy from another student.
- 2) If you require any assistance or wish to leave the examination room for any reason, please raise your hand to attract the attention of the invigilator.
- 3) If you finish the examination early you may leave, but not in the first 30 minutes or the last 10 minutes.
- 4) For 2 hour examinations you may **not** leave temporarily.
- 5) For examinations longer than 2 hours you **may** leave temporarily but not in the first 2 hours or the last 30 minutes.

## At the end of the examination

- 1) You must stop writing immediately – **if you continue writing after being told to stop, that is an assessment offence.**
- 2) Remain in your seat until you are told you may leave.

**Question 1**

- a) A multi-threaded Java programme is given in Figure 1 below. It does not produce predictable sequential results as shown.

[12 marks]

- i) Explain why Threads behave in this unpredictable manner.

(6 marks)

- ii) Explain the functions of *join()* method in Threads.

(3 marks)

- iii) If the method *join()* is used in between the threads in Figure 1, will that make the Threads to behave in a predictable way?

(3 marks)

```
class NameRunnable implements Runnable {  
    public void run() {  
        for (int x = 1; x <= 400; x++) {  
            System.out.println("Run by "  
                + Thread.currentThread().getName()  
                + ", x is " + x);  
        }  
    }  
}  
  
public class ManyNames {  
    public static void main(String [] args) {  
        // Make one Runnable  
        NameRunnable nr = new NameRunnable();  
        Thread one = new Thread(nr);  
        Thread two = new Thread(nr);  
        Thread three = new Thread(nr);
```

```
    one.setName("Fred");

    two.setName("Lucy");

    three.setName("Ricky");

    one.start();

    two.start();

    three.start();

}

}
```

**Figure 1: Multi-Threaded Java Programme**

The programme produces the following output:

Run by Fred, x is 1

Run by Lucy, x is 2

Run by Ricky, x is 3

Run by Lucy, x is 3

Run by Ricky, x is 4

Run by Lucy, x is 4

.....

Run by Fred, x is 345

Run by Lucy, x is 337

Run by Ricky, x is 310

Run by Lucy, x is 338

Run by Ricky, x is 311

Run by Lucy, x is 339

Run by Ricky, x is 312

Run by Lucy, x is 340

Run by Lucy, x is 341

Run by Ricky, x is 314

Run by Lucy, x is 342

Run by Ricky, x is 315

Run by Fred, x is 346

Run by Lucy, x is 343

Run by Fred, x is 347

Run by Lucy, x is 344

... it continues on ...

[illegible]

[illegible]

b) Threads have FIVE states. Fill in the states represented by **1** and **2** in Figure 2 below. Explain states **1** and **2**.

**[6 marks]**

### Figure 2: States of a Thread

	<b>Do not write in this column</b>

[illegible]

c) What is Message-Oriented Middleleawre (MOM)? Describe the **THREE** parts of a MOM message.

**[7 marks]**

	Do not write in this column

[illegible]

**Question marking:**  $\frac{\quad}{12} + \frac{\quad}{6} + \frac{\quad}{7} = \frac{\quad}{25}$

- a) Figure 3 below is a server code that listens to the client that sends a sentence of a line to it and the server responds by sending back the same sentence to the client, but in capital letters. Implement the Java client that reads a sentence from a console, opens connection and send the sentence to the server.

**[12 marks]**

```
class TCPServer {  
  
    public static void main(String argv[]){  
  
        String clientSentence;  
  
        String capitalizedSentence;  
  
        ServerSocket welcomeSocket = new ServerSocket(6789);  
  
        while(true) {  
  
            Socket connectionSocket = welcomeSocket.accept();  
  
            BufferedReader inFromClient = new BufferedReader(new  
InputStreamReader(connectionSocket.getInputStream()));  
  
            DataOutputStream outToClient = new DataOutputStream(connectionSocket.getOutputStream());  
  
            clientSentence = inFromClient.readLine();  
  
            capitalizedSentence = clientSentence.toUpperCase()+"\n";  
  
            outToClient.writeBytes(capitalizedSentence);  
  
        }  
  
    }  
  
}
```

**Figure 3: Java Server Code**

	Do not write in this column

[illegible]

- b) Differentiate between ServletConfig and ServletContext objects. Write a deployment descriptor (DD) for a servlet named **MyServlet** and class **MyClass**. The application shares a central admin email called **Admin\_Email** with a value of **admin@bupt.com**.

[illegible]

[illegible]

- c) Discuss the use of *volatile* in java key word on variables in relation to CPU, CPU register, CPU cache memory and Main memory (RAM)

**[5 marks]**

[illegible]

[illegible]

**Question marking:**  $\frac{1}{12} + \frac{1}{8} + \frac{1}{5} = \frac{1}{25}$

### Question 3

- a) Using your knowledge of the Open Services Gateway Initiative (OSGi), answer the following questions:

**[10 marks]**

- i) Describe Bundles, Modules and Services Registry in OSGi architecture

**(6 marks)**

- ii) Briefly describe TWO advantages of using OSGi

**(4 marks)**

[illegible]

[illegible]

- b) Write a simple JSP programme that prints the current data. Also state whether the following FOUR JSP expression statements are valid or invalid.

**[8 marks]**

**<0=10+5%>**

```
<%=new String[10]%;>
```

**<% ="200"%>**

**<%=100+foo%> where foo is undefined**

[illegible]

[illegible]

[illegible]

- c) Describe the function of ***JSON.stringify()*** in JavaScript programme. Write a Java Script programme that uses any standard Java Script Input and Output commands to accept Username, City and Age and then prints them out.

**[7 marks]**

[illegible]

[illegible]

**Question marking:**  $\frac{1}{10} + \frac{1}{8} + \frac{1}{7} = \frac{1}{25}$

### Question 4

- a) Using your knowledge of Enterprise JavaBeans (EJB), answer the following questions: **[12 marks]**
- i) In the EJB professional roles, describe the functions of EJB Server Provider EJB Container Provider and EJB Deployer **(6 marks)**
- ii) Describe Session Beans, Entity Beans and Message-Driven Beans **(6 marks)**

[illegible]

[illegible]

- b) Describe Authentication and Authorisation in Web security”. Also differentiate between Confidentiality and Integrity in web security.

**[4 marks]**

[illegible]

[illegible]

- c) Internet Protocols are important mechanisms of communication among Internet of Things (IoT) technologies. Using your knowledge of IoT protocols:

**[9 marks]**

- i) Why is User Datagram Protocol (UDP) not good for transporting data that requires accuracy and reliability?

**(3 marks)**

- ii) Describe THREE good features of Simple Object Access Protocol (SOAP)

**(3 marks)**

- iii) What does LDAP stands for? Describe TWO functions of LDAP

**(3 marks)**

[illegible]

[illegible]

[illegible]

**Question marking:**  $\frac{1}{12} + \frac{1}{4} + \frac{1}{9} = \frac{1}{25}$
