

EBU6304: Software Engineering

Lab 3: User Stories

Writing good user stories is a skill that will grow with time and experience. The aim of this lab is to practise user story writing.

Exercise 1: break down Epic to small user stories

This is an Epic in a travel App:

“As a business traveller, I want to be alerted if weather is likely to delay my flight.”

Break it down to THREE user stories.

Exercise 2: acceptance criteria

Write THREE acceptance criteria for each of the story.

Exercise 3: prioritisation

Use MoSCoW rule to prioritise the stories.

Exercise 4: estimating

Estimate the stories using a chosen method.
