

EBU6304 Software Engineering Lab Exercises Submission Instruction

Submission: deadline **Monday 18th May 23:59 UK time**

Submit a single ZIP file (must be .zip, not RAR) contains the following folders and files:

- Lab 1: UML Diagram, Java source code and class files.
- Lab 2: None.
- Lab 3: User stories with acceptance criteria, priority and estimation.
- Lab 4: The Design class diagram.
- Lab 5: Description of testing methods and test cases.
- Lab 6: Java source code of the product code and test code.
- Lab 7: Your answers of the questions.
- Lab 8: Your answers of the questions.

UML diagram can be a photo of hand drawing or using any UML tool. Text based answers can be a Word or PDF document.

Marking

Total 100 marks will be awarded on the completeness and quality of the solutions:

- All lab exercises are completed
- Programs are running correctly
- Answers of questions are satisfactory

The weight of the lab exercises is 5% of the module marks.

IMPORTANT note:

- The submitted work must be YOUR OWN work. It is OK if you haven't finished all exercises and/or your solutions are incomplete and/or your code has bugs. You still can receive good mark. However, if **plagiarism is identified**, e.g. your work is copied from other student, you will be given **ZERO mark**. This is a serious academic offence.
- Late submission will receive penalties.
